

Digital Signal Processing

Spring Semester 2022

Final Project, Part 1

Damon M. Chandler <chandler@fc.ritsumei.ac.jp>

Visual Information Engineering Laboratory
Ritsumeikan University

DIY audio player in Matlab

1. Block-based audio playback framework
2. Adding a “live” time-based plot
3. Adding a “live” frequency-based plot
4. Adding a filter
 1. Filtering before playback
 2. Filtering on the fly
5. Creating a GUI
6. Adding extra features
